

ANASSE RIYAH

FULL-STACK
DEVELOPER

ABOUT ME

Ambitious and results-driven Full-Stack Developer specializing in Digital Development, with a profound passion for bridging the gap between immersive, interactive UI/UX designs and robust backend architectures. Adept at leveraging modern web technologies to engineer scalable, high-performance applications that deliver exceptional user experiences. Driven by continuous technical growth and a commitment to engineering excellence, my definitive career objective is to earn a seat at Microsoft to architect world-class, innovative solutions.

SKILLS

- **Programming & Scripting:** HTML5, CSS3, JavaScript, PHP, Python, SQL
- **Core Concepts & Architecture:** Object-Oriented Programming (OOP), CRUD Operations, Relational Database Management, Responsive Web Design
- **Tools & Methodologies:** UI/UX Implementation, Web Automation (Node.js, n8n), Frontend Performance Optimization

EXPERIENCE

Full-Stack Developer | Freelance & Personal Projects

- Architected and deployed a highly interactive, modern web portfolio utilizing modern JavaScript, HTML5, and CSS3 to showcase technical capabilities and full-stack design acumen.
- Ensured 100% cross-device responsiveness and optimized DOM manipulation logic to eliminate rendering bottlenecks and improve overall application performance.

Market Data Analyst | E-commerce & Finance

- Conducted comprehensive research on Moroccan e-commerce trends, decoding social media algorithms and identifying highly profitable product niches to guide digital strategy.
- Performed rigorous technical analysis of financial markets and charting data, demonstrating strong analytical capabilities and a highly data-driven approach to complex decision-making.
